Dear Supervisors:

**ADOPT AND ADVERTISE
SECOND STREET OVER ALAMITOS BAY CHANNEL
SUPERVISORIAL DISTRICT 4
3 VOTES**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find that this project is exempt from the provisions of the California Environmental Quality Act.
2. Approve the project and adopt the plans and specifications for Second Street Over Alamitos Bay Channel, in the City of Long Beach (4), at an estimated cost between \$2,100,000 and \$2,400,000.
3. Call for bids to be received on September 17, 2002.
4. Instruct the Executive Officer of the Board of Supervisors to advertise the project and to seal and return the plans and specifications to Public Works for filing.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

This action involves contracting for the seismic retrofitting of the Second Street bridge over the Alamitos Bay Channel.

This project is part of an ongoing program to retrofit city and county bridges to reduce the potential for failure during an earthquake.

Implementation of Strategic Plan Goals

This project is consistent with the County Strategic Plan Goal of Service Excellence since it will provide safer highway facilities for the traveling public.

FISCAL IMPACT/FINANCING

The estimated construction cost is in the range of \$2,100,000 to \$2,400,000.

This project is entirely within the City of Long Beach and will be constructed as a Federal-aid project under the State Seismic Retrofit Program administered by the State of California. Under this program, the entire cost of the project will be financed with Federal and State funds. This project is included in the Fiscal Year 2002-03 Road Fund Budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The enclosed plans and specifications include the contractual provisions, methods, and material requirements necessary for this project. The contract agreement will be in the form previously approved by County Counsel.

As required by your Board, language has been incorporated into the project specifications stating that the contractor shall notify its employees, and shall require each subcontractor to notify its employees, that they may be eligible for the Federal Earned Income Credit under the federal income tax laws.

ENVIRONMENTAL DOCUMENTATION

This project is categorically exempt pursuant to Class 1, Subsection (x)(11), of the revised County Environmental Document Reporting Procedures and Guidelines adopted by your Board on November 17, 1987.

CONTRACTING PROCESS

This project will be contracted on an open competitive bid basis. The contract will be awarded to the lowest responsible bidder meeting the criteria established by your Board and the California Public Contract Code.

To increase contractor awareness of our program to contract work to the private sector, this project will be listed on the County website for upcoming bids.

The project specifications contain provisions 1) requiring the contractor to comply with the County's Child Support Compliance Program, 2) requiring the contractor to report solicitations of improper consideration by County employees and allowing the County to terminate the contract if it is found that the contractor offered or gave improper consideration to County employees, and 3) requiring the contractor to comply with the requirements of the Contractor Employee Jury Service Program.

The project specifications also contain a provision that, should the contractor require additional or replacement personnel to fill employment openings, consideration shall be given to hiring qualified participants in the County's Greater Avenues for Independence (GAIN) Program.

On December 19, 2000, your Board adopted a program for the use of small minority and women-owned businesses on federally funded highway construction contracts. Companies meeting these requirements are certified by the State as Disadvantaged Business Enterprises (DBEs). To be eligible for award of this contract, bidders must subcontract at least 15 percent of the work to DBEs or demonstrate a good faith effort to meet this goal.

IMPACT ON CURRENT SERVICES

The project is to be completed in 160 working days. It is estimated that the work will start in January and be completed in August 2003. Local residents and businesses will be informed that traffic and local access will be disrupted during the construction.
